Sukkar Chocolate Website

A responsive website for Sukkar Chocolate, a handmade chocolate business. It helps customers explore products and request personalized treats, while giving the owner tools to manage orders and site content.

Website and customer features

Public website

- **Pages:** Home, Our Story, Gallery, Reviews and Contact.
- **Gallery:** product photos organized by category, with names and descriptions.
- **Reviews:** customers leave a comment and choose 1-5 stars; admin approval controls what appears publicly.
- **Contact:** phone, location, Instagram and Facebook, plus a contact form that prepares a WhatsApp message.

Custom orders

- **Customer account:** register or sign in with first name, last name, email and password; password visibility can be toggled.
- **Order details:** idea description, country-code phone, allergy Yes/No with details when Yes, and up to five reference photos.
- **Collection plan:** choose a date at least three days ahead and a preferred time between 10 am and 10 pm.

Owner dashboard

Orders

- **Review requests:** see customer details, descriptions and attached photos; enlarge photos and accept or reject before work starts.
- **Agree the price:** send a price proposal in SYP; the customer can accept or decline it.
- **Prepare and collect:** set the order to Preparing, choose a collection time, message the customer and mark the order collected.
- **Status journey:** admin and customer see matching order stages, preferred time and confirmed collection time.

Site management

- **Gallery:** add and edit photos with required names, descriptions and categories; manage category lists and visibility.
- **Reviews and contact:** approve or remove reviews and update public business details.

Short order journey

1. **Explore and imagine**
   Browse Sukkar and decide what kind of treat to make.
2. **Send a request**
   Share the idea, allergy notes, photos, date and preferred time.
3. **Agree together**
   Sukkar reviews the request and proposes a price; the customer accepts or declines.
4. **Prepare the treat**
   After agreement, Sukkar prepares the order and confirms a collection time.
5. **Collect and enjoy**
   Pick up the finished treat and pay at collection.
